ONE HEALTH: THE THEORY AND PRACTICE OF INTEGRATED APPROACHES TO HEALTH

Prof. Jakob Zinsstag, DVM, dipl. ECVPH, from Swiss Tropical and Public Health Institute (Swiss TPH) Basel (Switzerland) will present an overview on One Health theory, methods and practice, with some examples of OH initiative/projects from Asia, Africa and Latin-America.

The webinar will start with an introduction to Swiss TPH and its major research lines and projects, and will continue with an introduction to One Health.

In the second part of the seminar, Prof. Zinsstag will address COVID-19 issues related to One Health, and present the COVID-19 situation in a TPH project country (Ethiopia), providing an outlook to the prevention of future pandemics.

The different sections of the webinar will be interrupted by Questions and Answers sessions, and a break.
